

GlacierWhite™ Acrylic 1 1/4" Thick Cast White Acrylic

For Low Profile Signage and Architectural Applications

features

- **NO TRIM CAP “INFINITY EDGE” FACE OPTION** - Creates clean rimless, infinity edge look on sign face so favored by high-end retails or architectural environments.
- **1 1/4" THICK LOW PROFILE SYSTEM** - Combined with Bitro’s Tracer LEDs, its optimized light diffusion technology outshines conventional channel letter signs
- **EASY TO FABRICATE** - Works great with automated cutting equipment for quality, consistency and accuracy plus cost savings
- **EASY TO SERVICE** - Creates embedded resin filled looking letters without the hassle of replacing the entire letter(s) in case of LED issues.
- **100% RECYCLABLE**
- **AVAILABLE IN SINGLE SHEETS, QUANTITIES OR BY THE PALLET.**

overview

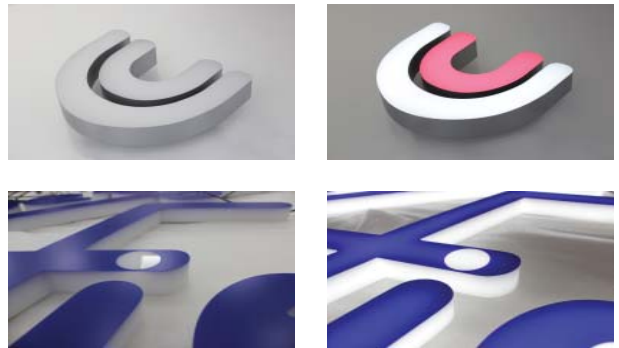

Bitro’s GlacierWhite™ Acrylic was originally designed and developed for premium Resno letters. With the increased popularity, we now offer sign fabricators the ability to create their own low profile infinity edge/rimless sign letters by using Bitro’s Tracer LED and InfiniteWhite Acrylic, guided by our vast manufacturing experience...truly a winning combination.

The GlacierWhite™ Acrylic is optimized for excellent uniform light diffusion that allows for stunning face-lit, face-halo and/or illuminated return applications without hotspots that is usually associated with this type of letter construction.

specification

Item#	Gwhite-30T-46
Size (active area)	49"x73" (1260mm x 1860mm)
Thickness	1 1/4" (30mm)
color	Milky translucent white
Max.qty / skid	20 sheets/skid
