

DIAMOND ELP Series

Edgelit Snap-frame Graphic Panel

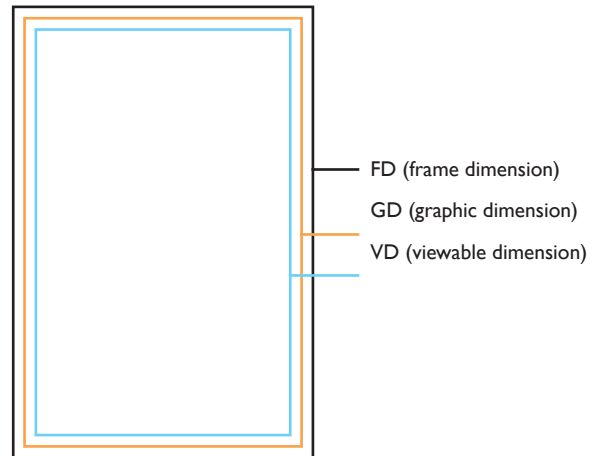

Ultrathin Edgelit LED Lighting Panels

overview

Allow Bitro to shine new light on your advertising methods with Bitro's Ultra-thin light panel. The modular design light box, which emanates with rich color and uniform brightness, can be customized for a wide variety of applications. In addition, its user-friendly design features bezels that snaps open forward for easy picture replacement, rounded corners for optimum safety, and a frame as thin as 3/4" in width for slim display. Begin enchancing your ads now by implementing this radiant light panel!

models & dimension

When you put a graphic into a Ultra-thin Edgelit frame, a 1/2" margin is covered by the frame.

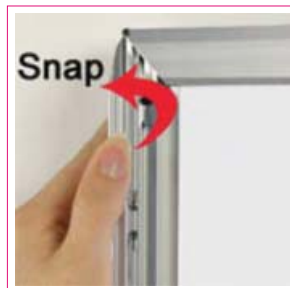

features

- Great for advertisement, tradeshow, POP, menu board.
- Ultra slim design looks great on any wall
- Uniform Illumination with no hot spots
